

Interpreting Blunt Force Injury Patterns in Bone: a Hands-on Approach

Date: Feb 16, 2020

Location: Anaheim, CA

Course Tuition: \$425

Principle instructors: Steven A. Symes, Ph.D., D-ABFA; and Ericka N. L'Abbé, Ph.D., D-ABFA

Participants: Coroners, Law Enforcement, and University students (limited to 28 participants)

Course Overview:

Dr. Steven A. Symes, Dr. Ericka N. L'Abbé and Dr. Mark M LeVaughn will be presenting a workshop that offers a unique opportunity to address with a hands-on approach a number of issues in experience, application as well as the analysis and interpretation of blunt force traumatic injuries to bone in a medico-legal setting.

Sunday, Feb 16, 2020

- 08:30-09:00** Introductions, Expectations of Workshop (LeVaughn)
- 09:00 – 09:20** Fracture Pattern Recognition, Real World Application and Bone Trauma Research (L'Abbé)
- 09:20-10:00** Hands-on analysis of blunt force injury to bone (7 cases)
- 10:00-10:15** Break: Tea and Coffee
- 10:15-12:30** Blunt force injuries to bone: biomechanics and case studies (Symes, LeVaughn)
- 12:30-13:15** Lunch
- 13:15-14:15** Hands-on analysis of blunt force trauma (7 cases)
- 14:15-15:00** Hands-on analysis of blunt force trauma (7 cases)
- 15:00-15:15** Break: Tea and Coffee
- 15:15-17:00** Focused group discussion on all 21 (7 x 3 sets) bone trauma cases and interpretations
- 17:00-17:15** Reflection (L'Abbé)
